What is the CuLab?

The CuLab, short for Curriculum Lab/Teacher Resource Center, is a facility located in Room 176 of the Main Building. Within this Learning Commons, multiple resources are maintained and managed for students, faculty, area teachers, and community patrons. Resources include computers, scanners, children's literature, teaching supplies, instructional samples, and a variety of texts. The Director is available to assist students with questions.

Students (in all programs) are encouraged to utilize this space – you do not need to be admitted to TEP to feel welcome. Students in Benchmark I and/or II will discover many items and services to be most helpful.

The student groups (EdSAC, meshEd, and Pi Lambda Theta) post their activities and hold many events in the CuLab. In addition, special functions and/or workshops sponsored by the Division of Education are scheduled.

The office of Charlotte Miller, Academic Advisor for Elementary Education and Early Childhood Education, is located inside the CuLab.
